If you or any family members require health care that involves the need for an organ transplant, Health Advantage is here to help you. Please have your referring physician call Health Advantage's Medical Management Department toll free at (888) 327-0671 or directly at (810) 733-9515 as soon as possible. To help provide Health Advantage members with high quality organ transplant care, your benefits require pre-authorization of any organ transplant or organ transplant related service.

Beginning with the pre-authorization process and throughout your care, nurse case managers are available to assist you and your family with the coordination of the services that will be needed. Please call Health Advantage toll free at (888) 327-0671 or directly at (810) 733-9505 and ask to speak to the nurse assigned to your employer. Your nurse case manager can assist you in many ways and looks forward to speaking with you.

As of September 1, 2006, Health Advantage has expanded the organ transplant centers that are available to Health Advantage members. These centers meet our rigorous criteria to be considered a center of choice. Requests for services will be directed to one of the following centers:

- University of Michigan Transplant Center www.med.umich.edu
- Karmanos Cancer Institute www.karmanos.org
- Henry Ford Transplant Institute: www.henryford.com

Health Advantage has provided their website addresses if you would like more information on these facilities. Remember, your referring physician must contact Health Advantage's Medical Management Department to pre-authorize all your organ transplant care, starting with your evaluation.

Thank you for choosing Health Advantage.
